

STATEMENT OF SUBSTANCE OF INTERVIEW

Initially, Applicant wishes to thank the Examiner for conducting an interview with Applicant's representative, Benjamin A. Keim, on March 25, 2008.

During the interview, Applicant's representative explained the claimed subject matter and presented arguments distinguishing the claims from the cited references. In particular, Applicant's representative asserted that the Marconcini reference does not show a grouping of files in a cluster with a cluster signature for the cluster (not individual files) and the files being for supplemental television content.

Several proposed claim amendments were also discussed during the interview. Applicant's representative understood the Examiner to acknowledge that claim amendments including additional clarification from the specification would likely be allowable over at least the references of record. Accordingly, Applicant herein amends the claims in the manner presented as proposed claim amendments during the interview.

All pending claims are believed to be allowable for at least the reasons discussed during the interview.
